London, November 29th.-Clergymen of he Established Church througho Britain devoted their sermons to-day to a vigorous pulpit propagandism against the Liberals. The unanimity with which this olgate gave \$300,000 to the Madison Uniersity, Matthew Vassar left \$800,000 to reasonably clear that the Bishop had given the cue to the country vicars and rectors, \$750,000 to the Northwestern Theological were stimulated to this action by the Tory sentinary. Mr. Wells founded a temate college at Aurora, N. Y., with a fund of \$500,000, and E. D. Morgan left \$1,500,000 advertible advertible and through the present campaign. Chamberlain must be convinced by to-day's events that he made a grievous tactical error in proposing dis-establishment as an issue in the pres-ent elections. He can now see that he has raised up against his party an army of a thousand trained orators, each having an established forum, a trustful udience, and an especial license to speak at just the time when the mouths of other icians are sealed. They are fighting or their religious convictions, which are lergymen accused the party, Whigs and the church, and solemnly warned their flocks that the only way of foiling those esigns was to defeat the Liberals at the olls. In many parishes the chargymen atimated that the disestablishment of the church meant the stoppage of the Christ-mas doles, which from time immemorial have been given to the poor. These thousands of sermons produced a marked impression, which will probably be reflected culture. These colleagues, endowed by Congress, are separately carrying on experi-

### ANOTHER BENEFACTION.

The priceless gems of art can be pos ter of elevating and purifying the public art and scientific character. On the basis of that gift an art school is soon to be opened in this city, and the beginnings of museum of natural history, though small, have already been made. Since that gift, and since the throwing open of the doors of the gallery, more people have viewed the works of art displayed than the most ardent friend of the scheme anticipated. The natural history of the Pacific coast will find place by representative examples in the Stanford museum with a rapidity unparalleled in the annals of such institutions. Our reasons for so believing need not now be stated, but they are convictions that we may hereafter more fully set forth. The founding of the Stanford Museum will stimulate like efforts everywhere in the State. It will be a benefit to our own in Sacramento, and to those of lesser breadth elsewhere, since just in proportion as the tastes of the people are guided in these directions will institutions responsive to them receive encouragement and material aid. The Justice has once before ought to leave the Bench, but was peruaded to withdraw a prepared resignation by the importunities of the Bar and of distinguished citizens. Plainly, it is the duty of the Justice to remain in office to the close of his term. The citizen who seeks an office of high trust and is accorded it by the votes of the people, is under contract the votes of the people, is under contract the train coming they feared that in the collision which must occur they would be enters into a partnership is found with his term for which they elect him. To resign before that time, is to involve the necessity of an appointment to the vacancy, by another arm of the Government which is not at all judicial in character, and is more or less necessarily swayed by political considerations and influences. But it may be accepted that the Justice will insist upon his resignation, and that the duty of appointing a successor will fall upon the lovernor. It is not for any one to advise that official what to do. It must be assumed that he will select to the best advantage for the people of the State, and when there was a slight intermission, after this he is more likely to do, we think, of his own judgment than if advised by the Bar or the people at large, because all such

advice must be divided in character, and vers, who will aspire to the place, be urged by their admirfor it. The causes that lead to the resignation of Justice Ross are of most moment. These have been but vaguely stated, even by the Justice, himself. But in that vagueness there is discovered something of the real causes. These we believe to be in the main the capacity of the Justice to earn very much more in the practice of the law than is assured him by his salary; and secondly, that the Court is far behind in its work, and the burden of the labor of the bench is falling upon a few members, or at least is not evenly divided. One of them, though now fully restored, was for a long time in capacitated by illness, and another is now unable to give that labor to the business of the Court that he should. As to the in-

tunately was going at slow speed, emerged from the first tunnel, the engineer noticed a flat car on the track. He put down the brakes, but the space between the train and flat car was so short that he could not prevent a collision, which, beyond shaking up the passengers, did no damage. At the same moment this occurred the engineer noticed two men clambering up the embankment as fast as they could go. The conductor and engineer jumped from the train in pursuit, and captured them. They were taken to San Rafael and turned over to a Deputy Sheriff, who locked them up in the county jail. The prisoners gave the names of Charles Davison and Herold S. McKoon, and said they lived in Santa Rosa. They stated that they found the flat car on the track, and were trying to lift it off. Finding they could not do this, they attempted the bank to a place of safety. Had the train been running at its usual speed a most disastrous accident would inevitably have occurred. The railroad authorities intend having the matter thoroughly investigated. The fight between Mitchell and Hamilton did not come off, as the Sheriff interfered to prevent it.

It is evident Good Templars believe in total abstinence from the use of alcoholic beverages and in that the promoters of rival propositions may be tempted to give the Trustees and total prohibition of the manufacture and sale of the same. The principal of total abstinence from the beverage use of alcohol is adopted by Good Templars because experience, history and science have demonstrated it to be a correct principal. Every sane person desires to live long, to live the live of alcoholic well to die happy. If the use of alcoholic the public exaggerated statements respecting the merits of one or the demerits of another plan for securing the water so much desired. All attempts to hastily push the city into a contract should be regarded with suspicion. It cannot be pre-tended that the Trustees have, from the well, to die happy. If the use of alcoholic liquors lengthens life, increases the utility of life and makes the death-bed easier, uperficial examinations thus far made, sufficient information to enable them to safely make a contract at this time. then man is justified in using it. If the use shortens life, cripples physical powers and makes the death-bed wretched, then April last it was stated to the Board of Trustees "that the Amador Canal Company was now the only one that had a proposithe man who uses it wrongs himself, his friends and society. This question is set-tled by the experience of life insurance companies. "Drinking alcoholic liquors tion before the Board or would have." Advice to Mothers.—Mrs. Winslow's SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhea, whether arising from teething or other causes. ### LOCAL INTELLIGENCE.

BOLD ROBBERY. - Saturday evening brakeman named Hildebrand, who was to go out on a freight train at 8:30, went to the train, standing on Front street, between L and J, about 8 o'clock, but not seeing any of the other train men stirring about the Totals .......... caboose, concluded to fill in time by seeing that the air brake apparatus of the train was all right. He had examined a few of the cars, and was between K and J streets when a man stepped out from between two cars, and addressing him, said, "We are strangers in the town, and would like a little assistance to get something to eat or a bed." Hildebrand told him he would be glad to assist him, but hadn't a dollar in the world that he didn't need. The man retorted, "I believe you're a d—d liar!" and struck at his head with a slungshot. The brakeman saw the motion and ducked his head, but was hit on the point of the shoulder by the weapon and fell down. Another man rushed out from between the cars and kicked him in the back, and his first assailant kicked him in the side. He begged them not to abuse him further, and told them that the only money he had was a dollar and ten cents, as he had not seen the pay car when it was here last, but they were welcome to it. With foul language they asserted that they did not believe him, and "went through" his pockets, declaring that they had got him and would find out for themselves. He was so fearful that they would kill or seriously hurt him that he did not cry.out for help. After taking the money and his pocketbook, containing papers of interest only to himself, they

GOOD TEMPLARS .- The County Lodge of I. O. G. T. convened Saturday at Firemen's Hall. Notwithstanding the condition of the roads and the disagreeableness of the weather, the county lodges were well represented. Credentials were received from Siloam, Capital, Cresco and Hillside Lodges Owing to the illness of C. C. T. George B. Katzenstein, P. M. C. T., M. C. Winchester, presided. The meeting was enthusiastic and interesting, all the lodges reporting that much good was being done by the several lodges in their respective localities. . M. the Bands of Hope marched into the hall, the Leader carrying their banner. Master Georgie Katzenstein delivered an address of welcome to J. B. Finch, the lat ter replying to the little folks in an entertaining, instructive and amusing manner. Mrs. M. E. Richardson, G. A. J. W. of Juvenile Work, also addressed them. Songs and recitations were given by the little tolks. The lodges adjourned to meet in Galt some time during the month of Feb

SATURDAY'S TROT .- The trotting race between two roadsters at Agricultural Park Saturday afternoon, for a wager of \$50 a side, owners to drive, attracted a good many spectators. Considerable business was done in pool-selling. The first heat was won easily by Sullivan's black horse, but the next two were won by Jones' sorrel. There was loud complaint that the black was not being driven to win. The judges were called upon to put up a new driver, but declared that they could not do so under the condi-tions of the race. Mr. Allen, lessee of the track, declared the race should not go on, and stretched a rope across the track. An excited dispute arose, but the matter was temporarily disposed of by the judges ordering a postponement until Monday, as a pretty heavy shower of rain was falling. Yesterday morning the judges declared the race and pools off.

BARWICK'S BULLETIN .- The rainfall Saturday night was at Sacramento, according to the Signal Service reports, .20 of an inch, making 11.33 inches for the month and 11.43 inches for the season, as against 2.61 inches to an equal date of last year. The Signal Service weather reports, at 7 P. M. yesterday, showed a rising barometer. rising temperature, southerly winds and cloudy weather prevailing north of this State, while light rain was falling at Tatoosh Island. In California the barometer was falling, accompanied by a rising temperature, westerly winds and clear weather

SACRAMENTO, November 29, 1885. | train. As the hours passed, and rain did not fall, it was determined to have a game, and not disappoint the hundreds of people who would assemble. Accordingly between 1 and 2 P. M. the work of relieving the grounds of water was commenced, and about 3 o'clock the game began, but there was so much mud around the bases that was so much mud around the bases that gum-boots would not have been out of place, and when the players splashed through it, and occasionally, in making a sudden stop, sat down or flopped over in it, the spectators seemed to think it too funny for anything, and greeted the mishaps with roars of laughter. But six of the Easterns were here, and, owing to some disagree-ment, the Altas as a club would not play. Two nines were filled out from local play-Five professionals were in a nine for which Renfro pitched, and the renowned pitcher, Sweeney, occupied the box for the other, McLaughlin catching, and if there

had been any doubt as to the latter's ability to hold for a first-class pitcher it was dissited by his performance yesterday, he sying without an error or passed ball. The Sweeney nine won by a score of 7 to 1 —that one being made by Fogarty, running for Cahill, who had got disabled. Despite the mud the game was played well enough to be interesting. Aside from the good work done by the respective batteries Renfro was in unusually good form—the best playing was by Mack, who never appeared to better advantage. Following is

FOOT RUN OVER .- About 7:45 Saturday evening a car-sealer, while attending to ome cars in the Front street yard, heard a man groaning, and discovered him lying between the freight depot platform and one of the cars. He informed E. C. Chapman, one of the freight clerks, and they succeed ed in getting the man upon the platform, when it was found that his right leg and foot were badly hurt. He was intoxicated, and had a bottle of liquor in his pocket. It was ascertained that his name was R. S. Frasier, and that he came here from Grand Island a few days ago, en route for the East. Evidently he had started for the train that evening but was too drunk to know where he was going, and went to the freight instead of the passenger depot, and fell between the platform and the track, where

> PRONOUNCED NOT GUILTY.-Before Jusce Henley last Saturday morning, in the olice Court-room, the case of Miss Jennie eonard, teacher of the school at Swiss tation, who was charged with battery pon one of her pupils, Jay Q. Williams, a by 13 years of age, last October, resulting a fracture of his leg, was tried by jury District Attorney Buckley prosecuted, and Grove L. Johnson appeared for the defense. Several witnesses testified, and the evidence tended to show that in an effort made by the teacher to compel the pupil to obey her they had a sort of scuffle and his leg vas accidentally broken. The jury reurned a verdict of not guilty. Miss Leonard was quite nervous while on the witness stand, and after leaving it, went from the Court-room to the City Attorney's office, Court-room to the City Attorney's office, accompanied by her sister, and soon fell from the chair in which she had seated herself to the floor in a dead faint. She was brought to consciousness, assisted to a carriage and taken home. METROPOLITAN THEATER .- To-night the very amusing Salsbury's Troubadours having concluded their successful engagenent at San Francisco, will appear at the detropolitan, commencing an engagement imited to three performances. They will oresent this evening the absurdity "Three of a Kind," in which Nate Salsbury and Nellie McHenry have opportunity to do a vast amount of exceedingly funny busiless, well supported by a good company of comedians. "Three of a Kind" is a jolly ollicking thing, which brings roars of laughter from an audience. To the sober mind it is, perhaps, as genuinely fresh and funny as "The Brook" or "Green-room Fun," with which the clever Salsbury Troubadours have become identified. There are witty lines and some bright repartee ere and there. Seats can be secured at

In March of last year (1884) I contracted a terrible blood poison, and for two years was under treatment as no unt-door patient at Nottingham Hospital, England, but was not cured. I suffered the most agonizing pains in my bones, and was covered with sores all over my body and limbs. Finglly I completely lost all hope in that country, and sailed for America, and was treated at Roosevelt in this city, as well as by a prominent physician in New York having no connection with the hospitals.

I saw the advertisement of Swift's Specific, and I determined to give it a trial. I took six bottles, and I can say with great joy that they have cured me entirely. I am as sound and well as I ever was in my life.

BLOOD-HORSE RACES. Well-Contested Events Over

Muddy Track. At the Bay District tract, Saturday, drizzling rain prevailed, and the track was heavy. The first event on the card was a selling purse, mile heats, for which Duke of Monday was in great request, he selling for \$60, against \$26 for Ned Cook and \$7 for the field, in which were Constellation Rondo, Mamie T. and Daisy D. The talent mmenced with a good winning, as they acked the Duke with vim both at the ool-box and in the books, and he won a vell-fought race from Ned Cook, with very ittle to spare in each instance, the time be

ng 1:501 and repeat.

The second race was the Finigan stake for two-year-olds, a dash of a mile, in which the odds at first were largely in favor of R. P. Asne's two colts, Ed. Corrigan and Ingleside, but later on a heavy commission was sent in on Plato, and he sold with Fedora at \$450, against \$500 for the others. At he drop of the flag Ingleside jumped of with the lead, and making the running to he half-mile, he gradually came back to his horses, and Ed. Corrigan moved up to Plato, who was then in the second position The race home was quite exciting, and i seemed as if Patsy Duffy would pull off the good thing, but when opposite the club-house Mike Kelly shook his horse to-gether, and Ed. Corrigan came away and

The others were Binette, 4 years 112 pounds; Ichi Ban, 3 years, with 107 pounds; John A., 4 years, 118 pounds, and Jim Merritt, aged, 96 pounds. Merritt, with his light weight, cut out the running, the uarter being made in :28; the half in :56, and the three-quarters in 1:23½, when the orses were in Indian file at a length disance, with Merritt first, Binette second ohn A. third and Beaconsfield fourth

while Ichi Ban, evidently in no condition was already hopelessly in the rear. Thence the horses gradually became bunched, and when they turned into the straight the view with Ferdinand Ward. Ward gives figures to show that Mayor Grace drew from Grant & Ward over \$147,000 in "profits," and that E. H. and E. G. Tobey at every turn, and at the draw-gate he had them all safe, winning in a strong galop in 2:18 by three lengths from Binette, the latter beating John A. for second money by a cant half length.

The backers of the favorites were jubi ant, and it appeared as if they were to make a clean sweep for the day, when the following event gave a turn to the fortunes of the fielders and the bookmakers. This was the Fan.e stake for three-year-olds,\$100 each, \$25 forfeit, with \$300 added, in which here were more than a score of entries, out Alta and Estill were the only colts that ced the starter. Steamer. IChina Mail, October 20th. with Hongkong during the past week have been a most disastrous collision in the harbor itself between two steamers, and the pirating of the British steamer Greyhound, some seventy miles from Hongkong. Of the two, the latter event has caused the reater sensation; in fact it has thrown the shipping and mercantile community into a regular ferment. Nothing of the same nature has occurred for many years, and every one felt confident that the days of irating foreign vessels were over.

Greyhound, a small steamer which has been employed trading between Hongkong and Haihow and Pakhoi for some years past, left here, under the command of Captain C. W. Snyder, at daylight on Saturday last, the 17th of October, for Hoinow and Pakho, with two European of

icers and two European engineers, twentyfive of a Chinese grew and about 120 pasengers and a general cargo. About 12:10 nidday), when the steamer was seventy niles to the south west of Hongkong, be-ween 30 and 40 of the apparently innocent bassengers, distributed over the vessel, sudlenly opened fire on the unsuspecting officers and engineers with revolvers. The Captain, in trying to get to the chart-room, on the bridge, to get his revolver, was met by three or four men, who.

after firing a regular volley into him stabbed and then threw him overboard The chief officer, more fortunate, succeeded in reaching his cabin, after a narrow escape, and locked himself in. The second officer and chief engineer, who were in the escape, and locked himself in. The second officer and chief engineer, who were in the after part of the ship, were fired upon at the same moment as the Captain and chief officer, and fared badly indeed. Both men ran forward to the saloon, where the armory was, but before they reached this rendezvous, the second officer was hit in seven places, and the chief engineer in seven places, and the chief engineer in the places. The place is the place in the place is the place in the place in the place in the place is the place in the place in

Chronic Sciatica Cured. ASHLAND (Mass.), January 23, 1885.

For the last two years I have hobbled around on crutches. During that time I was afflicted with sciatic rheumatism. I not only suffered terrible pain night and day, but was utterly helpless. After using every possible effort to get well, and exhausting the best medical advice, I was induced to try four Allcock's Porous Plasters. These I wore on my side, hip-bone and thigh. In one week I was almost entirely free from pais, and strength returned to my palsied limb. I continued using these Plasters with the most surprising results for three months, when I became perfectly cured and abandoned the use of crutche Persons desiring further information car address me.
